reconsider the question. The Selectmen had a letter dated August 15 from Highway Surveyor Manuel Nunes in which he stated that the land is devoted to and needed for public service (the storage of town materials including rock salt.) Mr. Nunes requested that the easement be delayed until he could be provided with the opportunity to have the town meeting revoke the license or relocate the access. Because Attorney Novick stated that Mr. Rochette was prepared to sue the town, the Selectmen went into executive session with Town Counsel, Attorney Donald Fleming, to discuss the matter before the vote. It was Counsel Fleming's opinion that the Board of Selectmen do have the right to postpone the granting of the easement. The Selectmen voted in favor of such a postponement although Selectman R. William Blasdale stated he did so very reluctantly and was far from comfortable with the vote.

Attorney Novick showed Selectmen photos taken by Mr. Rochette showing extensive vacant land in the area through which the easement license runs. He said that the highway surveyor had recently cut down all the trees and moved earth which created drainage problems. He claimed that a seemingly deliberate obstruction to the access to the Rochette land had been in progress. Attorney Novick read an old deed which he said gave basis for the access to an old path to the Rochette

land. He told the Selectmen that they were obligated to carry out the vote of the town meeting. He stated that Mr. Rochette had been promised verbally at the hearing on the town gasoline tank that he would have access to his land via the path. One man, he said, should not have the ability to thwart the vote of the entire town meeting.

Attorney Fleming replied that the Selectmen do take the town meeting vote very seriously but also have the responsibility to see that town property functions as it should. He said that the Selectmen do not feel that a delay would involve any undue hardship to allow the matter to be taken back into the town meeting. Mr. Novick replied that if the Selectmen voted to ignore the mandate of the town meeting they erode the town vote to the will of one man. He said, "You are letting Manny Nunes run the Board of Selectmen. Your written duty is to carry out the town meeting vote."

Attorney Fleming said, "It is just the opposite. The Board of Selectmen feel that this is not a matter of just an individual but it is a matter of property that is in public use - not fallow land."

Selectman Blasdale said that it had been his hope that both parties could come to some amicable agreement long ago without recourse to legal confrontation. He presented the motion to defer any action until the next annual or special town meeting.

Suzan told Selectmen that the town wharf is a mess and that it is a shame that the conditions present at the wharf are allowed to continue without correction. He said that the people fishing off the long wharf throw the stinking bait all over its surface and no one cleans it up. He said that boatmen with large boats tie up at the small boat float and do not allow it to be used for the designed purpose. He said that boats tied up at the float overhang the channel between the wharves creating a hazard and are not told to move because no one is on duty at the wharf. He stated that in his opinion the Wharf Commissioner and Harbormaster should be a combined job and should be on duty

week and could not be present and although he did check periodically on the weekends conditions were not ideal. He said that twice he has posted the float at 10 minutes but that the sign has been torn down. He said that the job should be full time, year round and that it should be combined Wharf Commissioner and Harbormaster. Mr. Suzan said that the harbormaster's boat should be berthed at the wharf. He said that its presence would be a deterent (as a patrol car slows highway travel) as a show of authority. The harbormaster's boat is presently moored off the boatyard to be convenient to Karl Collyer who works there.

Chairman William Hubbard stated that there is no money to hire anyone full time at the wharf. He reminded Mr. Suzan that the town is now required to pay full hourly rate and time and a half for services as opposed to donation of time to public service. He said that if Mr. Alves wanted to hire someone at peak use times and could find money in his budget the Selectmen would support him. The Selectmen

There will be a "Punch and Judy" show on Thursday, the 24th, and Friday, the 25th, under the direction of Becky Dunn and her merry puppeteers.

These beautifully crafted puppets were bought in England in 1900 for the daughter of Mr. and Mrs. Charles S. Hamlin, summer residents in Mattapoisett for many years.

Many performances of "Punch and Judy" were presented on the lawn of the library prior to World War I and later these lovely puppets were presented to the Historical Society by Mrs. Katherine Frizzell.

A glass of punch will be included in the price of admission to the Puppet Show.

The art show is under the direction of Lauri Watjen, Darcy Lee, and Sarah Knight.

Come and join the fun!

YOUNG PEOPLE'S THEATER

Marion Art Center Young People's Theater will present "THE ME NOBODY KNOWS!" at the Center on Friday, Saturday and Sunday, August 25, 26, 27 at 8 P.M.

In mid-July, 35 young people from the area and New Bedford, and ranging in age from 13 to 20, came to try-outs for the annual summer theater program at the Marion Art Center. The production chosen for this summer was a musical written by young people from the city's poorer sections. Originally written for a small cast and a perfect setting for the limitations of the Art Center, Mrs. Gaucher, the director, set about the task of using a much larger cast. The feelings... fears, likes and dislikes; dreams and frustrations of these young people are all evident in the sometimes poetic and sometimes fiery dialogue and songs. Add to this the enthusiasm of this group of talented young thespians..et voila! A great night of Theater for young and old.

Tickets are on sale now from cast members and at the Marion Art Center. Your

A very special thank you to Tremblay's Bus Service and Murray DeCoffe for getting the team and our bus home from Boston. The community is very fortunate to have people such as this among us. Their response in our time of need was overwhelming.

The Westerly, Rhode Island meet that was postponed last week has been rescheduled for September 2nd. The bus will leave Center School at 7:30 A.M. sharp and the parents are invited to attend. Bring a picnic lunch and travel on the bus with the team.

THEN: In 1880, two Boston tennis champs about to compete in a Staten Island tournament were stunned to find the balls to be used were only two-thirds the size of those they played with in Boston. The committee dismissed their protest, pointing out that each ball was clearly stamped "Regulation." The committee won the argument; the players lost the match. This incident led to the formation of the United States Tennis Association.

NOW: As a result, "regulations" are now standard everywhere. The USTA, a nationwide, not for profit membership organization devoted to the development of tennis as a means of recreation and physical fitness, supports both amateur and professional play. For a list of publications on virtually every aspect of the game, from improving your backhand to ways to finance community tennis programs, send a self-addressed, stamped envelope to USTA, E & R Center, 729 Alexander Rd., Princeton, N.J. 08540.

Marion Senior Citizens and members of the Sippican Senior Club will resume their weekly meetings for duckpin bowling on Wednesday, September 6th, at 9:00 A.M. at the Bowlmor Lanes, 22 County Road, Mattapoisett.

EASTER SEAL SOCIETY

The Massachusetts Easter Seal Society would like to thank several area Capeway softball teams who participated in a softball marathon to benefit the Easter Seal Society. The teams included Brad's, Mahoney's, Green Thumb and the Blue Lantern. A special pick-up team of students from Old Rochester also participated in the marathon.

The marathon raised $3,000.00 to benefit the Easter Seal Society and a special highlight of the 11:00 A.M. game on Sunday was the throwing of the first ball by Jeffrey Connor of Mattapoisett who recently returned from two weeks at an Easter Seal camp.

FUEL FACTS AND FANCIES

Wind has not only been a fuel for moving sailboats and windmills, but even modern airplanes get a boost from wind. The jet stream blows a steady 200 miles per hour—30,000 feet above the earth.

The energy content of the 150 million tons of municipal solid waste generated in the U.S. each year is equivalent to more than 200 million barrels of oil. Resource recovery processes are being developed to recover glass, aluminum, and steel from solid waste and produce a fuel product called refuse derived fuel. The experts at the Electric Power Research Institute are working on a number of projects to enable efficient energy recovery from this fuel in utility power plants.

Green plants actually create their own fuel in a process called photosynthesis. Using sunshine, water and basic nutrients, plants build starch for energy
